BOARD OF COUNTY CANVASSERS.

The Board of County Canvassers met yesterday at 10 a.m. Supervisor Blunt called on the Fifteenth Ward, Supervisor Bleakley the Eighth and Ninth Wards, and Supervisor Roche the Nineteenth Ward. About one-third of the returns in the Eighth, Ninth and Fifteenth Wards were found imperfect, and the Canvassers sent for. The Nineteenth Ward, for a wonder, proved correct in every detail. We give its official report:

LEAVENWORTH, NOV. 15.—The following is the official vote in all but seven counties in the State.

DETROIT, NOV. 15.—Considerable feeling is manifested here by the Republicans over the action of the Board of Commissioners, who yesterday threw out the vote of the Fifth and Sixth Wards on account of surplus of votes being returned over the number on the poll list, the excess being four in one ward and eight in the other. This action causes the election of the entire Democratic County and Legislative ticket.

THE ELECTIVE FRANCHISE FOR THE FREEDOM.

The Chicago Times follows its declaration that negro suffrage is inevitable by an argument to show that, even from a negro-hating point of view, it would be harmless. We quote from a leading editorial of Nov. 13:

The most important fact which is revealed by the census in Mississippi and Alabama is the great and rapid decrease of the black population. The decrease of white population in six years has been in the State of Mississippi. The decrease of the black population in Mississippi has been in the same time, 57,000. In those portions of Alabama where the census is completed, the relative decrease of blacks and whites is shown to be 10 per cent., while the white population has increased in six years at the rate of 13 per cent., while that in the same period, under all the destructive agencies of civil war, the decrease of white population has been in the neighborhood of 3 per cent. If the negroes had not been the dominant race in those sections, the black population in the sections has been reduced from 4,000,000 in 1860, to 3,400,000 in 1866. These facts furnish with a certainty that is more reliable than prophecy what is the inevitable destiny of the negro race in this country.

In the last 10 years preceding the war, the white population of the Free States increased at an average rate of over 50 per cent, while in the same period the white population in the Slave States increased at an average rate of 20 per cent. The decrease in the black population in Mississippi has been in the same period increased at the rate of 23 per cent, while the free negro population increased at the rate of only 12 per cent. During the next 10 years, it is reasonably to assume, that the white population in the Slave States will increase at a rate of 20 per cent, and the negroes will increase at a rate of 15 per cent. The negroes in the same proportion as the white population in the other Free States, while the increase in the negro population in a state of freedom, will be about 10 per cent. It is evident that the negroes in the South will have much smaller increase in the next 10 years than the negroes in the Free States.

THE HAMILTON CONVENTION.
The negroes in the South will be able to attain the qualifications required of white men for his exercise? There is no well grounded reason against it, if it will promote the interest of the dominant race who grant it.

In another editorial of the same date **The Times** says: "The New-York Tribune has said very frequently within the past year, and we now understand it to occupy the same position, that its platform is 'A impartial Suffrage and Amenity.' It is in favor of a system of the quietness of the ballot box." The negroes in the South are to have their franchise on Sunday, made substantially the same declaration.

A majority of the radical leaders have said that their purpose in maintaining the agitation concerning the negro question was merely to secure the negro franchise, and not to secure negro suffrage. "A law making suffrage dependent upon the intelligence of the man, irrespective of color, would leave the State governments of the South in the control of men who could conduct them properly."

It is also to be noted that the negroes in the South will be enfranchised, which would immediately occur under such a law. Such a law would obviate the objections which have been urged against negro suffrage as the supporters of the negro franchise have done. It is also to be determined whether the negroes in the South will be enfranchised, which would immediately occur under such a law.
